***“Systems & Education, the professionally recognised I.T. Partner,
inspiring solutions for you.”***

Do you need help with computer support, installation and configuration? Do you need technical support with virus problems, internet connectivity and remote working?

We are a systems integration company that works closely with our customers to ensure they can rely on the IT solutions we provide.

Since we established in 1998 we have developed, and will continue to develop, excellent relationships with all organisations and individuals we come into contact with. We treat our suppliers with the same respect we treat our customers, and we regard long term relationships with all parties as an essential part of profitable business growth.

We are centrally located in the East Midlands servicing Leicestershire, Northamptonshire, Coventry, Nottinghamshire and Warwickshire. We have a policy of working with customers within one hour of our site, this ensures that we can provide a level of service our customers can rely on.

Our customer base ranges from schools, businesses, charities right through to Playing for Success Centres. At Systems and Education we understand that all organisations are different, although you all have one general need – the best use of ICT.

Staff within our company have wide and varied backgrounds, this blend of experience and youth is helping us to provide a balanced approach to providing ICT solutions for you!

All Systems and Educations technical staff are CRB cleared.

Company Description

Founded in 1998 we are one of only a handful of firms in the Midlands allowed to display the official Microsoft Small Business Specialist logo as a trusted provider of the best quality services and technology support to small businesses.

IT Services

We are a specialised IT solutions company who has a massive installation base in local primary schools. This experience is helping us to provide comprehensive solutions for small businesses and voluntary sector organisations. Letting us manage your day-to-day support operation offers the potential to free up valuable internal resources to focus on strategic issues and give end-users an enhanced level of service.

We provide a service which is made up of several elements which can be tailored to your needs with a number of the following additions:-

- Remote internet access
- Network checks
- Anti-virus package
- Spam management
- Backup checks
- Security checks
- Software and hardware upgrades
- Scheduled or ad-hoc visits
- Web design
- VPN – working from home
- CRM Installations
- Members of NAACE and members of the BECTA Enable Group.
- Resellers for Toshiba, NEC, Fujitsu, Sophos, Microsoft and Xerox.
